EDUCATION

ADAMSON UNIVERSITY

Bachelor of Science

Major in Computer Science ; Concentration in Web Development

GWA: 1.38/1.00;

Relevant Coursework: Data Structure and Algorithms, Software Engineering 1 & 2, Web and Mobile Development

Ermita, Manila

Jul 2026

EXPERIENCE

STRASTAN SOLUTIONS CORP. (4-member team, digital marketing and IT solutions company)

Guadalupe, Makati

AWS Cloud Fullstack Developer

Feb 2026 – Jul 2026

- Implemented the backend integration between the AWS Lambda services and the Next.js frontend by wiring API endpoints within the Promotions section using Postman API, enabling a functionality that could support more than 10 businesses.
- Developed custom and reusable UI components using React, TypeScript, and Tailwind CSS, utilizing shadcn/ui and native React components to create a consistent, maintainable interface within a team of 5.
- Authored 18+ jest unit tests for AWS Lambda functions in a CDK-based media stack backend, mocking AWS SDK Calls via `jest.mock()` with an approximate pass rate of 90%.

UNIVERSITY PROJECTS

MONEY TRACKER

Mar 2026

- Built a CRUD finance tracker web application using Next.js with a PostgreSQL database hosted on Supabase to log and manage daily financial transactions.
- Implemented authentication using three identity providers with an optional multi-factor authentication (MFA) for enhanced application security.

PILLPAL

Feb 2025 - Mar 2026

- Designed an 8-page, high-fidelity prototype of an AI-powered medical management mobile application in Figma, incorporating free Material Icons to create a consistent and intuitive user interface.
- Won the Hatchling Dynamo, Undercover Hatchlings, and Hatchling Runners awards at The Hatch: Pitch Competition, held at Adamson University, earning Php 2,500 in total as part of a 6 member team.

EXTRACURRICULAR ACTIVITIES

SIKAPTALA 2026: The National CS & IT Competition

Jun 2026

- Presented our thesis at SiKAPTala 2026: The National CS & IT Competition, hosted by De La Salle Dasmariñas – College of Information and Computing Studies, among more than 12 participating teams from universities across the Philippines.
- Placed 2nd Runner-Up in the Healthcare Track of the competition, competing against three other teams within the track.

Transformative Link: A Semiconductor Knowledge Forum

Sep 2025

- Presented our Batak-English Mobile Translation Application at the university-wide semiconductor forum together with the visiting officials from Mingshin University of Science and Technology and Taipei Economic and Cultural Office (TECO).

ADDITIONAL

Technical Skills: Advanced in SQL and Figma, Proficient in HTML, CSS, Tailwindcss, Javascript & Typescript, Novice in Java and Python

Certifications & Training: Information Networking Specialist in Networking and Cybersecurity, Introduction to Web Development (Meta), Javascript Essentials 1 (Cisco)
